## NOTICE

June 1, 2009

**All E & E Engineering, Inc. Customers:**

It is with deep regret and sorrow that we must inform you that on May 14, 2009, E & E Engineering's line of credit was canceled by the bank and our loan called in. As a result, E & E Engineering was forced into an orderly liquidation by the bank.

All remaining accounts receivable owned by E & E will be collected and paid to the bank in repayment of the loan. Further, all of E & E's remaining inventory and equipment has been liquidated and the proceeds used for repayment to the bank.

Arrangements are being made to provide the many product lines offered by E & E Engineering through two Michigan based companies. Details will be provided as soon as they are finalized.

The E & E Special Products brand of tooling components will be offered through E & E Special Products LLC. These products will be manufactured locally and sold throughout North America by independent reps and distributors.

E & E Special Products LLC can be contacted at P. O. Box 808, Warren, Michigan 48090, by phone at 586-978-3377 or by fax at 586-978-3378.

We appreciate the business and loyalty of our many customers over the past 66 years; and wish to express our sincere apologies for this unfortunate situation and for any difficulties this may have caused.

Sincerely,

***P. Matthew Hirzel***

President/CEO

E & E ENGINEERING, INC.
